

C1
contd.

3. (Amended) The optical imaging system of claim 1, wherein the first polarization direction is nominally p-polarization and the second polarization direction is nominally s-polarization.

C2

10. (Amended) The optical imaging system of claim 1, wherein the color separation and recombination prism includes a Philips prism.

C3

17. (Amended) The projection system of claim 13, wherein the color separation prism assembly includes a Philips prism.

Please add new claim 25 as follows:

CA

25. The optical imaging system of claim 1, wherein the Cartesian polarizing beam splitter is a wire grid polarizer.

A version marked up to show changes made to the claim(s) relative to the previous version of the claim(s) is attached.
